Concerns about AI use

- Transparency
- Accuracy
- Quality of input and training data
- Data access and ownership
- Consent
- Human oversight
- Accountability
- Bias amplification
- Job losses and impact on labour market
- Lack of understanding of context
- Lack of humanity
- Overreliance
- Time-saving
- Value for money
- Environmental impact
- AI as sticking plaster
- AI creep
- Children's vulnerability and unintended consequences

Ethical principles

- Human interaction and decision-making
- Cost/benefit analysis
- Planning, regulation and monitoring
- Co-production
- Transparency
- Consent
- Privacy
